

GMS NEWSLETTER #7

OCTOBER 1, 2021

When it comes to ensuring that your child has the greatest possible chance at succeeding and in preparing your child for a future of achievement, there is a growing acceptance that the pre-KG experience just might be at the heart of the equation. Children who have this opportunity are more socially, emotionally and mentally mature, and consequently learn more, achieve more and succeed more. Pre-KG is a critical period for teaching a whole host of life skills important for school readiness including focusing, emotional regulation, critical thinking, problem solving and communication. The pre-KG experience at GEMS Millennium School, Sharjah is therefore thoughtfully designed to give students this early advantage.

Our mission is to provide our little pre-kindergarteners with an exemplary educational experience. We emphasize on the importance of achieving personal standards of excellence in academic, sporting, cultural and recreational activities. Our priorities are built upon a foundational belief system that every student can and will learn at high levels, and every student will benefit from a personalized learning journey.

When children enter our pre-KG spaces, they will start their journey of self-development within our caring and nurturing environment. Being a part of our Pre-KG will encourage children's independence and enquiry skills, so preparing them for an extraordinary learning experience which will continue into KG1 to Grade 2 (our Early Years Programme). Our highly qualified and professionally trained faculty believes in inspiring a passion for learning, encouraging emotional and intellectual vitality, and empowering students with the confidence and courage to achieve their dreams. Our student teacher ratio across all phases of the school reflect our commitment to ensuring quality education and a high level of pastoral care for all of our students. We use technology and smart innovative approaches to learning, to enrich our curriculum, provide intervention, and to immediately close learning gaps.

The Pre-Kindergarten programme is based on the EYFS principles. We will provide an enriching and simulating experience that ignites curiosity, imagination and exploration keeping in mind the student's ability, age and language proficiency. Activities planned in the free flow areas enhance and develop independent learning, self-reflection and critical thinking skills. Regular observations are be done to understand, assess and plan the next steps in learning for individual pupils' development.

In setting up a provision for Pre-K, we continue to set excellent standards for learning and development. It is a time of rapid growth, when children are developing physically, emotionally, intellectually and socially. We are one of amongst the few schools that are offering Pre-K in Sharjah. Our play and outcome-based approach are what sets us apart.

We look forward to welcoming our very first batch of Pre-K on October 3, 2021.

ANNOUNCEMENT

The Pre-Kindergarten programme at GMS is based on the EYFS principles. We will provide an enriching and simulating experience that ignites curiosity, imagination and exploration keeping in mind the student's ability, age and language proficiency. Activities planned in the Free Flow areas enhance and develop independent learning, self-reflection and critical thinking skills. Regular observations are be done to understand, assess and plan the next steps in learning for individual pupils' development.

International Inter-School Hindi Storytelling

Our students participated in the International Inter-School Hindi Storytelling Competition, Premchand Story Fest - 2021 .

Students from across the Gulf Countries, Singapore and India participated in the competition.

The competition was held in two rounds. Siddhant Seth of Grade 5B secured the 3rd Position among all the Gulf Schools in the Preliminary Round. He qualified for the Final Round held on Saturday, 21 August, 2021 where he secured the 5th position.

This is a huge achievement, and we are extremely proud of him.

KG- Learning through Discovery

The words “kindergarten” and “joy” are inseparable. And it doesn’t matter who’s describing the experience. Our children learn by doing and in doing so, they experience the joy of learning through discovery. This kind of deep learning engages the whole student—heart, mind, body, and soul—ensuring more meaningful understanding.

KG-Learning through Discovery

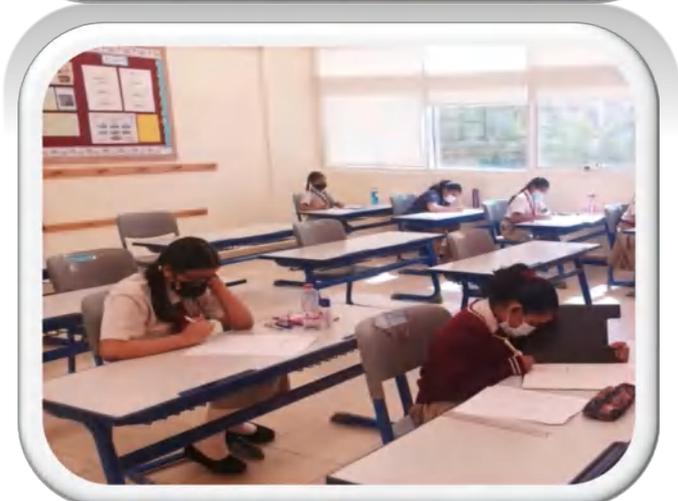

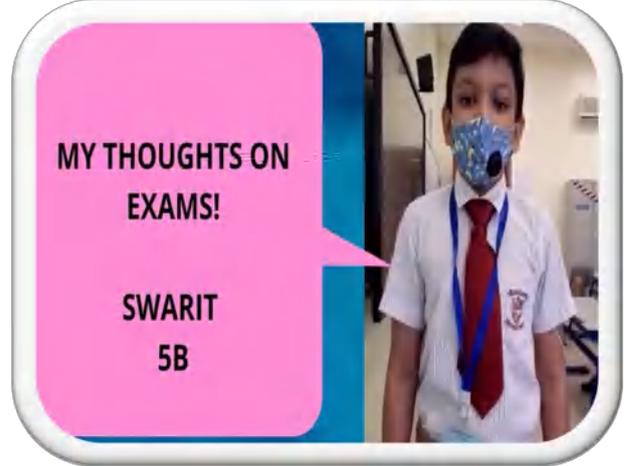

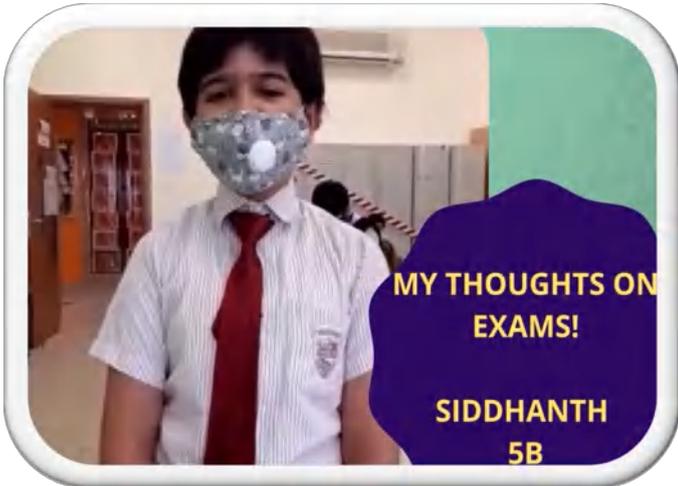

Accentuating the Positive

ONSITE EXAMINATION!

Accentuating the Positive

COUNSELOR'S CORNER

Career Readiness
Orientation for Parents

A career readiness orientation was held on the 22nd of September for all the parents of TDOs of grades 9 to 12. The main objective of this session was to prepare the parents with all the information and support tools they would need to ensure a smooth transition for their children. A step by step explanation was given to the parents on how to help their child reach their career goals.

Parents were encouraged to understand their child's strengths before considering their weaknesses. Exploring various careers may be intimidating due to the plethora of options available before us and thus understanding and knowing the child is beneficial to the decision-making process. Knowing what is suitable for your child will lead you away from the mob mentality which helps you avoid making a very common error usually made while deciding career paths. The school provides all the students with multiple tools such as Unifrog, CAT4, CommonApp and special talks by the counselors in order to equip the students to make better and well-informed decisions.

The students and the parents have the responsibility of asking the right questions and willingness to explore multiple options depending on the interest and aptitude of their child. While deciding on a career could be a tumultuous journey, it is a ride to cherish and enjoy as a family.
