EDITION #14

From the Principal's Desk

It seems so simple. Of course, students should learn to read. That has been understood for generations. However, many do not understand just how important reading is to overall student development, starting at a very young age. Research shows that even infants being read to by their parents, increases academic success in the years that follow.

At GMS, we are committed to helping all our students become proficient, motivated readers. We begin monitoring reading progress in kindergarten all the way through to Grade 12. For children whose reading does not progress as expected, a plan for improvement is created. The plan is personalized and need based, and the programme is supported by Specialists.

WHY IS READING SO VERY IMPORTANT?

The impact of reading extends well beyond academic success.

IT IMPACTS SELF-ESTEEM. This might be the most important area of all. The sooner students develop reading skills, the more ground they gain in the classroom. That leads to more assurance in how they speak and write, as well as giving them the confidence of an expanded knowledge base. When students start at an early age to read about diverse people, distant places and historical events, they become more creative and open. Also, those who have read a lot will naturally be asked to answer more questions – another confidence builder for

students.

IT IMPROVES CONCENTRATION. An emphasis on reading helps develop higher levels of focus and concentration. It also forces the reader to sort things out in their own mind – including topics that might not be familiar to them at all (for example, another planet in a science fiction novel). This type of concentration on one activity – rather than trying to do many things at once – leads to better focus even after the book is put down.

IT INCREASES CRITICAL AND ANALYTICAL THINKING SKILLS. A simple example of how reading helps students develop better critical and analytical skills, something that carries over even after they have put the book down, is when a young reader becomes absorbed with a mystery book – Nancy Drew, Sherlock Holmes or Agatha Christie – and manages to solve the mystery before the book reveals it.

IT HELPS BUILD STRONGER MEMORY SKILLS. Think about reading. Even an elementary age child with a relatively simple book must keep in mind a group of characters, the setting, and past actions. Reading helps to strengthen memory retention skills. That's a powerful tool for young students – and older students, as well.

STUDENTS WHO READ HAVE A MARKEDLY EXPANDED VOCABULARY. How many times do we all search for just the right word to express what we're trying to say? Readers do that less. They have a larger vocabulary, and the words that readers learn in a book will eventually make their way into their speech, and their writing.

JUST 20 MINUTES OF READING A DAY CAN MAKE A DIFFERENCE!

A student who reads **20 minutes** per day at home will have read 3,600 minutes per school year. That is 1,800,000 words per year. These students score in the **90th percentile** on standardized tests.

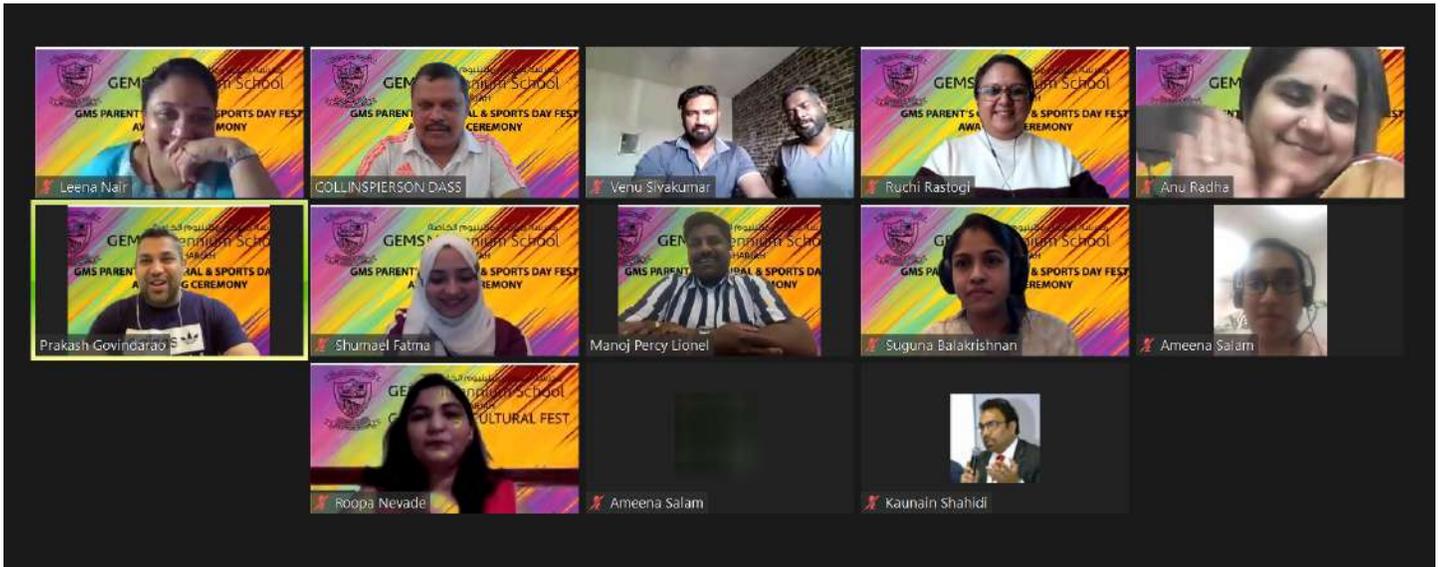

A student who reads **5 minutes** per day at home will have read 900 minutes per school year. That is 282,000 words per year. These students score in the **50th percentile** on standardized tests.

A student who reads **1 minute** per day at home will have read 180 minutes per school year. That is 8,000 words per year. These students score in the **10th percentile** on standardized tests.

The impact reading makes on students can resonate through the rest of their lives. Besides, reading is a great form of entertainment! It relaxes the body and calms the mind. As the French novelist Marcel Proust noted, "It is through the contact with other minds which constitutes reading that our minds are fashioned." So, please do R-E-A-D!

KG FASHION FIESTA

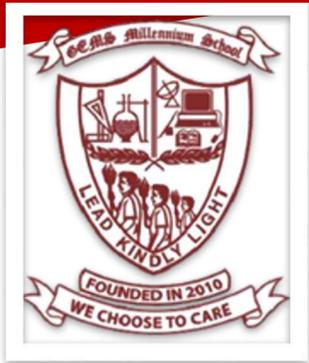

FEBRUARY 1, 2021

“Today’s special moments are tomorrow’s memories”

The Finale of the Kindergarten Fashion Fiesta was a virtual treat with the best of creativity, and innovation. The top 30% of the 200 participants at the Preliminary Round, amazed our judges and audience once again with their charming smiles, creative costumes and stellar performances. While our students of KG1 shared their dreams of ‘What They Want To Be’, by turning into the finest community helpers, to travelling right into space and fantasy land, the students of KG2, showed us the best of Science and Technology through virtual reality, robot police and flying humans to name a few, by giving us a glimpse of ‘The Future In The Next 50 Years’. Explosions of talent and confidence was the hallmark of the event as our little Fashionistas enthralled us with each performance.

MORNING MINDFULNESS

20/02/20

Listening Activity

1. Christmas will come in the month of December.
2. They decorate the outside with twinkling lights they also have a wooden Santa Claus and a reindeer set by their father on the road. In the inside they have a tree they decorate it with ornaments and lights.
3. The pine tree smells very nice, you have to be careful because if it gets dried it will be on fire.
4. Red and green.
5. The siblings will put stockings near the fireplace.
6. Mother cooked turkey for dinner.
7. The carolers come to the door to sing.
8. Christmas is about giving than in receiving.

ENGLISH

20/02/20

Picnic in the woods

Key words

1. mibble - I love to mibble tomatoh.
2. picnic - I packed my things in the basket for picnic.
3. furry - We use furry coats during winter.

20/02/20

Sentences

Who is your best friend?

When is your break time?

What is your favourite colour?

Why didn't you complete your homework?

How do we make a paper flower?

When do we celebrate Christmas?

5. If a teacher is for camping a beach is for _____ camp

a. swim b. swim c. read

6. The hot dogs were delicious, some of the following is a synonym for "delicious"

a. great b. not so good c. tasty

7. Why did they turn the clock back?

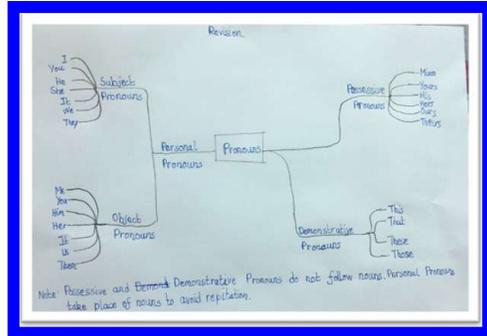

They had their computer crashed let doggie make.

8. Once the hot dogs were cooked, what did they do? Explain in your own words.

They put hot dogs into bun and added ketchup.

9. Write a short paragraph about the hot dogs and write a sentence.

Last Friday, we went camping with my family we had a picnic on the beach. We had hot dogs and my brother set up a picnic. Mother and I had cooking about. My dog came the picnic and he was very much.

Revision

Different birds are different in nature just as humans are. As we saw in the lesson the sparrow was playful and was playing with a pea while the crows were very furious and revengeful because their nest was brought down. On the other hand, the pigeons were very jolly and wanted undivided attention from the doctor. This shows us that all birds are different in nature and act differently based on the situation they experience.

Revision Worksheet

Section A - Reading Comprehension

1. B To lay emphasis on the importance of chess as it teaches problem solving.
2. B He wants to improve student scores in Math by making them learn chess.
3. A As it helps in thinking, analyzing and concentrating.
4. A an organized method
5. B lists arranged in a particular order.

b) How does the 'The Old-Clock Shop' give out as a message of peace and harmony?

- The clock symbolized hope for the intruders.
- It averted a situation that could have gone wrong and harmed Ray.
- The clock proved out to be a ray of hope for the intruders as it indirectly carved a path of righteousness for them.

d) How is English a wonderful game that is played by everyone?

- Everyone looks for words and style to match their expression.
- To express one's thoughts in words is everybody's right and one should know how to do it.

 Math Practice Worksheet (2020 - 2021)
 Topic: Fractions

Name: SIDDHARTH KANAKIA Grade 3 sec: D Date: 24-12-2020

★ ★ ★ I can do it...

Q1. Colour half of each of the shape given below:

Q2. Divide each shape into four parts and colour one fourth:

Q3. Fill in the blanks:

- A fraction is a part of a whole.
- four quarters make one whole.
- Two halves make one whole.
- Half of an hour is 30 minutes.
- One is equal to four quarters.

24/11/2020
 c:10

Division

Objective 4
 Divide 2, 3 digit numbers with and without remainder.

AFI:

1.
$$\begin{array}{r} 47 \\ 2 \overline{) 76} \\ \underline{8} \\ 16 \\ \underline{16} \\ 0 \end{array}$$
 $q = 48$ $r = 0$ ✓

2.
$$\begin{array}{r} 23 \\ 3 \overline{) 69} \\ \underline{6} \\ 0 \\ \underline{0} \\ 0 \end{array}$$
 $q = 23$ $r = 0$ ✓

3.
$$\begin{array}{r} 31 \\ 2 \overline{) 62} \\ \underline{6} \\ 0 \\ \underline{0} \\ 0 \end{array}$$

Solve: Revision

a) $3r = 30$
 Ans: $r = 30 \div 3 = 10$ ✓

b) $\frac{x}{5} + 4 = 10$
 Ans: $x = 6 \times 5 = 30$ ✓

c) $14g + 2 = 72$
 Ans: $g = \frac{70}{14} = 5$ ✓

24/11/2020

Task 1

Represent the following fraction using different shapes:

a) $\frac{1}{2}$ ✓

b) $\frac{1}{3}$ ✓

c) $\frac{1}{4}$ ✓

Krishna Kumar /Narayan (1) Time to complete: 21:27 Points: 4/5

1. The first 4 common multiples of 2 and 3 are: 1 /1pt
 6,12,18,24

2. The first 4 common multiples of 2 and 4 are: 1 /1pt
 4,8,12,16

★ ★ ★ I can challenge myself...

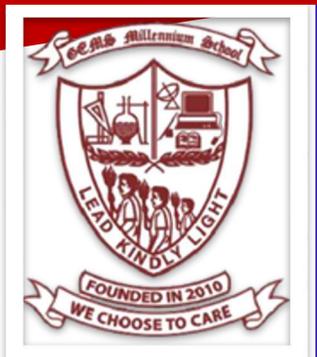

Q5. Solve the word problems:

a. I am thinking of a number. One fourth of my number is 6. What is my number?
 Justify your answer with drawing any object in the given box:
 $\frac{1}{4}$ of $24 = 6$
 The number is 24.

b. There are 60 students in the bus. Half of the students are boys. How many students are girls?
 $\frac{1}{2}$ of $60 = 30$ - 30 girls

c. Mohammed bought 12 strawberries. He ate 3 of them. What fraction of the strawberries did Mohammed eat?
 One quarter $\frac{1}{4}$

d. Zara took a quarter of sweets from the box.
 How many sweets did she take?
 How many sweets were left in the box?

Q97. How is air pollution harmful to the health of the climate?

Q98. How is air pollution harmful to the health of the ozone layer?

Q99. How is air pollution harmful to the health of the acid rain?

Q100. How is air pollution harmful to the health of the global warming?

Project 1

Fill in the blanks

- Air pollution causes breathing problem (air pollution/land pollution).
- Pollution can kill living things (living/non-living).
- Forest fire is an example of natural (natural/man-made) pollution.
- Air pollution is bad for human health (good/bad).
- Trees release oxygen (oxygen/carbon dioxide).

Q1. We can control air pollution by planting more trees.

Q2. What steps must we take to keep the air fresh? Why?

Q3. The steps that we should take to keep the air fresh are:

- By stop cutting down trees.
- By not burning fossil fuels.
- By switching of electronic equipment.

Soil is formed by the breaking down of rocks.

Q2. Mind map any three factors that affect the formation of soil.

Ice, Wind, growing plants

SST

Objective 2 - X

What is atmospheric pressure? Do you think atmosphere has weight? If so, reflect on why humans don't get crushed underneath it.

Ans: Atmospheric pressure that is exerted by the weight of the atmosphere. Air does have air, if we balance an inflated and a deflated balloon, the inflated balloon is heavier. Air does not crush us but there is a type of air that is pressing outside our body pushing inward that typically cancel out so, no force can crush us.

GEMS Millennium School

RLP ACTIVITIES - GRADES 5 & 6

FEBRUARY 1, 2021

POOJA SREE - 6G

Circle writing
"The big old motorcycle"

Write everyday I'm the big old motorcycle. You may have seen me in many bike races and rallies, so now I'm going to tell you a bit more about me.

As you already know, I am a racing bike. I have won many championships and grand prizes. I live in a small town where everybody knows me, especially the youngsters. I love going there by roads across the town. I live in a big house with my like buddies. My racing fans call me "baddest" because I am very aggressive in racing and I will hit almost everything! I love being so confident with my friends. We love to show-off the trophies by showing them while driving across the streets. After the day is over, we come back at home late and tired, and finally get some rest.

So that's it for now. It was nice talking to you, bye!

As that's it for now, it was nice talking to you, bye!

FRENCH RECIPE

Dauphinoise potatoes:

*Pour 6 personnes
*Ingredients:
Beurre
pommes de terre
Emincées
crème double 400ml
lait 200ml
ail 3 gousses, pelées
thym 2 sources.
feuilles capillies comté (ou alternative végétarienne) 100g

*Preparation
1. Chauffer le four à 180 ° C / ventilateur 160 ° C / 602 4.
2. Beurrer un grand plat de cuisson et ajouter les tranches de pommes de terre en couches dans le plat en assaisonnant généreusement chaque couche.
3. Porter la crème, le lait, l'ail et le thym juste avant de faire mijoter et verser sur les pommes de terre en enlevant les gousses d'ail.
4. Asséchez-vous sur une plaque à pâtisserie (pour éviter tout déversement) et transférez au four.
5. Cuire au four pendant 50 minutes jusqu'à ce que les pommes de terre soient tendres lorsque vous poussez une brochette ou un couteau au centre et que la sauce bouillonne.
6. Répartir sur le comté et cuire encore 10 minutes jusqu'à ce qu'il soit doré.
7. Servir avec des diners rôtis ou du magret de canard.

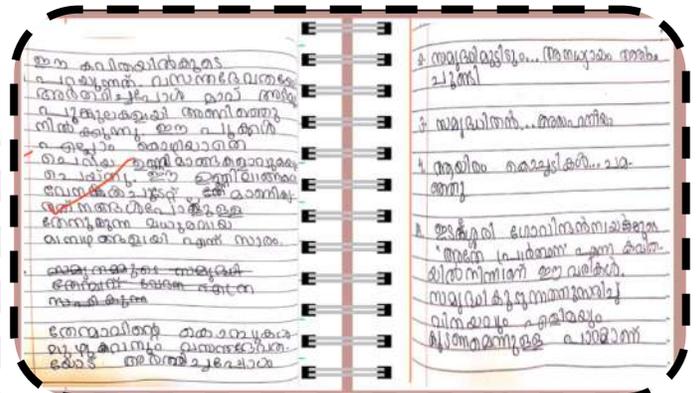

CURES FOR PEPTIC ULCER

BE AN INSPIRING PARENT

FEBRUARY 1, 2021

Allow your kid to be a kid

- * Your kid is after all, a child. Let him/her be that way and enjoy childhood.
- * If he makes a mistake, let him learn from it.
- * Don't have too many expectations.
- * Tell him/her in a gentle way to be careful instead of stopping an activity.

Indulge in a Creative Activity

- * Creativity can influence your child's psychology in a positive way.
- * Dedicate time and involve him in a creative activity, if he/she loves like arts, crafts or playing
- * Hang-up his/her artwork on the wall or frame it for your living room display to encourage him further.
- * This kind of activities will build your child's self-esteem and help him to concentrate more on his creative activities.

Understand the fears of your child

- * Don't label your child as a troublemaker or timid, respect his/her fears.
- * Try and figure out the real issue that is bothering them.
- * Help him/her to overcome fear by digging and finding out the cause.
- * Hold him/her, advise and strengthen your child during that phase.
